TO SAVE THEIR INDUSTRY

Strong Statements to Congress Against the Duty on Hides-The President of a Cattle Company Shows That the Cattle Raisers Get No Benefit From the Duty-How Senators Can Be In-

At the recent mass meeting in Chitago by the leather manufacturers to semand free hides, at which meeting hides declined 8 per cent." there was represented more than 90 per cent of the entire output of leather goods in the great central west, a very pteresting letter by A. D. Browne, President of the Hamilton-Browne Shoe Company of St. Louis, was presented to the meeting, indorsed by unanimous vote and forwarded to Washington by telegraph.

This letter was addressed to Senator Dolliver, urging him not to stand with Aldrich for a duty on hides, and contained the following straightforward

.The West and East United, We of the west have been working hard in conjunction with the eastern manufacturers of boots and shoes for abolition of the 15 per cent duty on hides, knowing, as we do, what the continuation of it means to the indeendent tanner if he cannot get relief from this burden before it is too late

"We assume that your attitude is inspired by a feeling that the growers of cattle are benefited by the 15 per cent duty on hides. This is not the case. The writer of this is largely interested both in the manufacture of shoes in Missouri and in the growing of cattle for beef purposes in Texas. The cattle company of which I am ident sells annually from \$60,000 to \$75,000 worth of beeves and has done so for years. I therefore speak not in any theoretical manner, but by

Hides Merely a By-product.

"I know from actual experience that the animals that my cattle company ed and sell to the packers are vald from the beef standpoint entirely and that the hide is merely a byroduct along with the horns, the writer as a manufacturer of shoes, one of the largest in the world, is therefore in a position to see the operation of this iniquitous tariff on hides from both sides of the line of division, and say to you in the light of the knowlage that I have acquired through ant 15 per cent duty on hides is abol-shed it is but a short time until the endent tanner will be forced out siness or into clerkships with the cking-tanning interests as they are astituted

"Do not allow yourself to be pernunded that you are working in the interest of the west when you lend our support to the proposition to place duty on hides. We of the west do not want this duty. It operates directive against all of the best interests of ably higher than in the Dingley law. lutely no one but the packers.
"I realize the full weight of the

ents I am making to you and hold myself responsible to you for the facts embedied in them. But do not give our vote for a duty on hides upon the theory that you are protecting the west against the sast. This is not the

Urgent Demands Needed. One of the telegrams from the convention to one of the senators read: You must stand firm for free hides. The country outside the trusts demand

Aggressive and persistent demands of this sort have proven to be the most ective way to influence senators. The senators appear to think that the proposed additional plunder signifies

NO ADVANTAGE TO THEM

Ex-Governor Douglas of Massachu setts, Great Shoe Manufacturer, we That Cattle Raisers Are Few and Get No Benefit From a Duty on

Ex-Governor William L. Douglas of Massachusetts, one of the largest manufacturers of shoes in the country, has recently issued a statement protesting against a duty on hides, in the course of which he shows that no benefit from the hide duty goes to the cattle raisers.

Cattle Raisers Becoming Fewer. According to the census of 1900 there were then only 37,629 stock es in the country, while there were 5.483,618 farmers—that is, the stock isers constituted less than 1 per ent of our farming population and only about one-fifth of 1 per cent of our total population. As our grazing lands are growing less and less each year, which is the case in every country advancing in civilizan, the number of stock raisers bees less. It was stated on May 13, 1900, by Boyd's City Dispatch, a well known distributing agency, that they could find only 22,000 names of persons who could fairly be called stock or cattle raisers. So that, if we asso that the cattle raisers are benefited by the duty, 800 consumers of This is an intelerable ratio of burdens nefits, even from the standpoint of a high protectionist.

Prices of Cattle and Hides. ut ex-Governor Douglas, after referring to these things, went further and showed by a careful comparison rices of cattle, bides and leathcontrol prices of cattle, indees and leather for the past twelve years that there is practically no relation or connection between the prices of cattle and indees and not even a close counsection between the prices of hides and leather treatment. Do not experiment with untried remedies as delay may result in your cold settling on your lungs. F. B. Brill. local agent.

April, 1897, to April, 1909, taken from official and authoritative sources, Mr.

Douglas said: "Thus we see that the prices of hides are often high when the prices of cattle are low and often low when the prices of cattle are high.

"In 1905 and 1906 bides were selling above 15 cents per pound when cattle were below 6 cents per pound, while in 1902 hides were selling at 13 cents when cattle were selling at 81/2 cents In 1906 hides were selling at 161/2 cents. when cattle were selling at 6.85 cents, while in 1908 hides were selling at 91/4 cents when cattle were selling at 714 cents. From April, 1908, to April, 1909, the price of cattle declined 2 per cent, while the price of hides advanced 47 per cent. From February, 1906, to April, 1909, the price of cattle advanced 26 per cent, while the price of

A BAD INFLUENCE

The Sugar Trust Leads and Controls the Beet Sugar Factories

GETTING ALL THEY WANT

A New "Joker" Found In the Aldrich Bill For the Sugar, Trust-What the Beet Sugar Industry Amounts to and What It Demands - Costly and Wasteful Business For Consumers.

It is reported from Washington that President Taft has asked for information from the treasury department to help him to get an idea of what sort of relief the consumers are likely to get out of the new tariff bill on the articles of common use in every household. The explanations of the bill by Payne and Aldrich and the whole debate in House and Senate have made it clear that such a thing as relief for the consumers was not contemplated by the framers of the bill. The consumers have all along been openly laughed at. Is President Taft beginning to see a new light as to the possible influence of the consumers when

The President Needs Light. The president should receive all the light possible from every source. An open letter was recently sent to him which gave some light on the provisions of the senate tariff bill about sugar. This letter was sent by Mr. Frank C. Lowry, Secretary of the Committee of Wholesale Grocers formed to assist in obtaining cheaper sugar for consumers through reduction of duties on raw and refined sugar.

A Universal Necessity. Sugar is an important necessity in every household and also a material that must be used in large quantities in the great industries of canning, preserving and making confectionery, which would all be much greater industries in this country if they could get cheap sugar. The present Dingley duty on refined sugar is 1.95 cents per pound. The tariff bill now pending in the senate reduces this rate to 1.90 cents per pound, but as the "maximum and minimum" proviso adding 20 per cent to the rates is practically certain to be imposed in the case of sugar, the tariff on this article will be consider-

The Aldrich Bill "Jokers." The Aldrich tariff bill, like the Ding- LARGE SHAD 25 CENTS ley and Payne bills, is crowded with "jokers," which are only gradually being discovered. A "joker" is a concealed job, whereby the actual effect of the provisions of the act is otherwise than it appears on the surface to be. A new "joker" to the advantage of the Sugar Trust has just been made public by the New York Journal of Commerce.

A Trick by the Trust. It was known that the Sugar Trust

and the beet sugar interests were opposed to the admission of sugar free of duty from the Philippines, which President Taft favored, and it has been stated that the Trust opposition was disarmed by the provision in the Aldrich bill that not more than 300,000 gross tons of sugar could be imported duty free from the Philippines in any fiscal year. It now appears that this provision contains another provision that preference in this right of free A Disinfectant Dry Powder entry is to be given to producers of less than 500 tons in each fiscal year. Ostensibly this is to encourage the Philippine sugar ineffective, because it discourages the investment of money in any large way in sugar cultivation in the Philippines, and sugar cannot be produced to advantage for export in the Philippines or anywhere else on any such small scale.

This matter is another indication that the same old evil influence of the Sugar Trust, which has been in eviience in the framing of all previous tariff bills, is also busy in the Aldrich bill. The beet sugar interests and the Louisiana sugar interests are in alliance with the Trust.

Out of Season. Mrs. Hi Uppe-Dear, did you see any of those fine old aqueducts while you were in Italy? Mrs. New-Rich-Never seen a duck. And while we was riding across Germany we kept a lookout for some of them German peasants, but I never seen such a scarcity of fowl no place.-Kansas City Drovers' Telegram.

True Friends.

"A friend cannot be known in prosperity, and an enemy cannot be hid in adversity. True friends visit us in prosperity only when invited, but in oes and other leather goods must be prosperity only when invited, but in seed for every cattle raiser benefited. adversity they come without an invi-
